SATELLITE

MASTERCLASS

ABOUT SVNIT

This Institute was established in 1961 as one of the RECs for imparting technical education in Civil, Mechanical and Electrical Engineering. In the year 1983-84 the Under Graduate programmes in Electronics Engineering was introduced and in the year 1988-89 the UG programmes in Computer Engineering and Production Engineering was started. In the year 1995-96, UG programme in Chemical Engineering was introduced. In exercise of the powers conferred by section 3 of the University Grants Commission (UGC) Act, 1956, the Central Government on the advice of the University Grants Commission, has declared the Sardar Vallabhbhai Regional College of Engineering & Technology (SVREC), Surat to Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat with status of "Deemed University" with effect from 4th December 2002.

ABOUT ASHINE

Association for Harnessing Innovation and Entrepreneurship is a Technology Business Incubator located at the centre of Sardar Vallabhbhai National Institute of Technology (SVNIT), Surat spread across 250 acres of lush-green campus having all the modern educational and recreational facilities for students. With an infrastructure that can support 30+ tech and non-tech startups and 200 startup enthusiasts from across the nation.

ABOUT STAR

STAR - Space Technology and Aeronautical Rocketry is a space education and launch service based startup that aspires to make space for everyone. Our vision is to make space easily accessible at an affordable cost. Space Technology and Aeronautical Rocketry is incorporated as Avkashyaan Private Limited & recognized under Startup India by DIPP.

WHY SATELLITE MASTERCLASS?

To have a virtual learning experience on Satellite Technology & Orbital Mechanics from basic to advance from anywhere across the globe. At STAR, we have made our best attempts to make the space science & engineering easier to understand.

ABOUT SATELLITE MASTERCLASS

It's a 5-day certified training program which consists of:

DAY 1: Basic concepts, Satellite design & subsystems

You will be introduced to the history of the Space Technology, basic designs, and subsystems of satellites, based on their sizes & applications.

DAY 2: Orbital Mechanics

Here you will be learning the concepts & applications of different types of orbits. You will get to learn various Keplerian elements essential to design and uniquely identify an orbit.

DAY 3: Orbital Perturbation & Communication Losses

Here you will be learning about the effects on satellite orbits due to irregularity in Earth's shapes & gravity of other celestial objects. Also you will get to know about the types and reasons for the communication losses.

DAY 4: Rocket Trajectory & Transfer Orbit

You will be learning about equations to design 2-D trajectory to launch a rocket to space. You will also be learning equations to design Hohmann Transfer Orbit

DAY 5: Design Thinking & Valedictory Function

Design Thinking will help you in understanding the process of problem finding, identifying, and solving.

Having a lot of questions?

3 STEPS TO BE ON BOARD

1. Fill up the Registration form
2. Submit the payment
3. Confirm your seat

ENROLLMENT DETAILS

Link: bit.ly/SMC-AS

Fees: INR 999 / - per applicant (Including GST)

Platform: Google Meet

IMPORTANT DATES

Applications open: 9th October 2021

Last date to enroll: 22nd October 2021

Masterclass starts: 25th - 29th October 2021

TIMINGS

7:00 PM to 9:00 PM (IST)
